

## **Altius Minerals Corporation /ARR Investor Marketing and Sustainability**

Altius Minerals Corporation (“Altius”) is a successful diversified natural resources royalty company (~\$700 million market cap) with interests in sustainability focused materials including base and battery metals, potash fertilizers and clean steel-making. Altius also cofounded and owns ~59% of Altius Renewable Royalties (“ARR”), the first publicly traded renewable royalty company (~\$260 million market cap) established to finance utility scale renewable energy projects. Altius Minerals provides ARR with ongoing finance, administrative and investor relations support services.

Both public companies have experienced strong growth in the past year, and are creating a new position for an energetic individual with drive, initiative and the ability to thrive in a dynamic environment developing investor communications programs with a focus on emerging investor demographics. This position will also play a critical role in supporting ESG related strategy development, reporting and disclosure.

Altius has office locations in St. John’s, NL and Toronto, Ont. however flexibility is available to consider other locations from which to base the position depending upon the candidate’s experience and qualifications. In the current environment, there is also flexibility to work from home.

### **Areas of Focus**

- Marketing materials preparation support
- Digital marketing experience including direct advertising campaigns and similar outreach tools on traditional and social media platforms
- Broad understanding of ESG in the context of energy and mining and interest in further education in:
  - Relevant current and emerging ESG risks and opportunities
  - ESG strategy development
  - ESG frameworks and standards
  - ESG reporting and disclosure standards
  - Understanding of investor expectations
- Interest and understanding of climate- related risks and opportunities, applied within a largely North American operating environment, but with understanding of the broader global context including :
  - Climate policy and related policies and regulations
  - Climate-related Scenario Analysis
  - Climate metrics and targets including carbon net zero
  - Knowledge of carbon offset markets and mechanisms
  - Climate-related reporting and disclosure

### **Qualifications**

- Minimum of 5 years of relevant experience
- Demonstrated knowledge and track record in digital marketing, investor relations and/or ESG and sustainability
- Strong analytical skills - able to critically review and analyze performance data
- Strong project management skills

- Excellent written and oral communications skills
- Proficiency with powerpoint, excel, and a variety of social media platforms
